LEFT gripper - calibration pieces (click_to_move CAL ARMS)

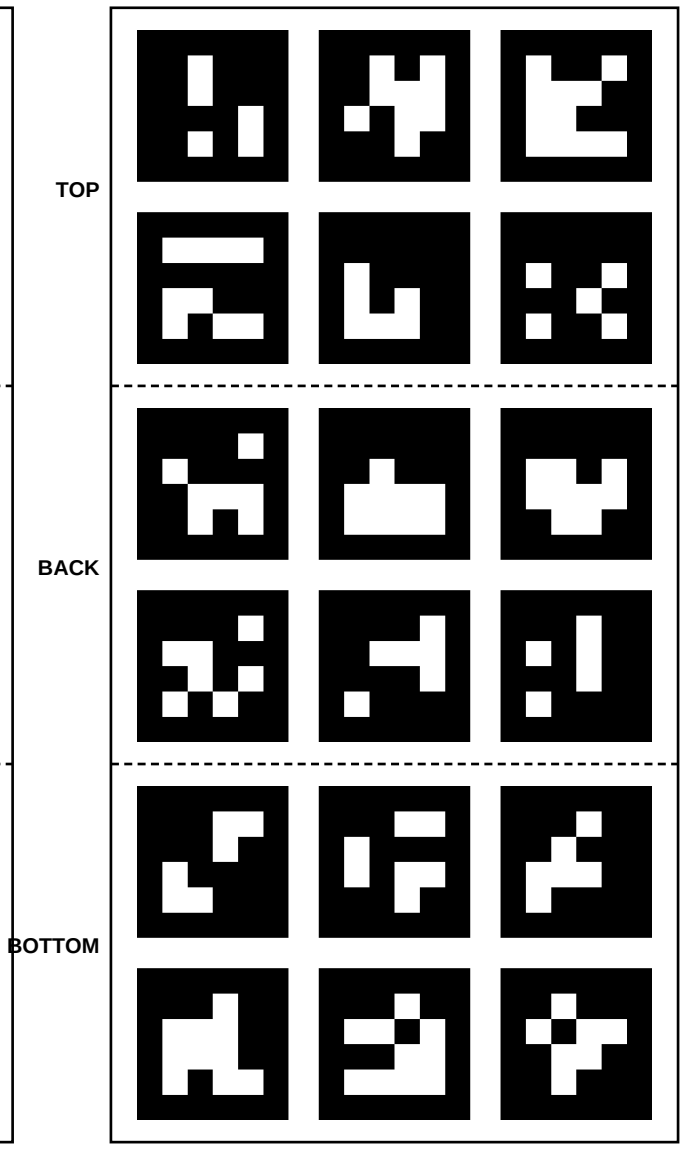

Print at 100 % / "Actual size" (no fit-to-page). Check: the bar below must measure exactly 100 mm.
Cut along the solid outline (75 x 150 mm). Fold along the two dashed lines, 90 degrees, printed side out.
BACK (middle) goes flat on the back of the rail, facing the wrist, one piece each side of the motor;
TOP folds up and over the rail's upper side, BOTTOM down over its lower side. Stiff card, glued flat;
the faces must not move or bend. Exact fold angles do not matter - every face is calibrated on its own.
LEFT pieces on the LEFT gripper only. Keep them on: the top-down picks read them.

100 mm

LEFT piece 1

LEFT piece 2

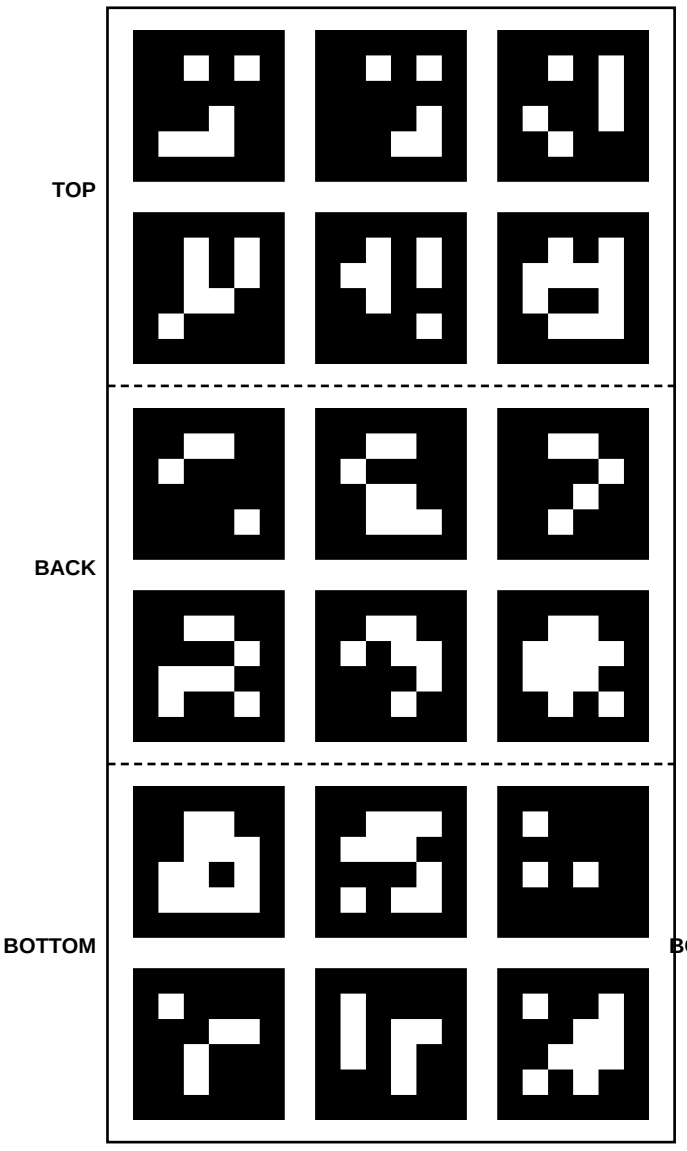

RIGHT gripper - calibration pieces (click_to_move CAL ARMS)

Print at 100 % / "Actual size" (no fit-to-page). Check: the bar below must measure exactly 100 mm.
Cut along the solid outline (75 x 150 mm). Fold along the two dashed lines, 90 degrees, printed side out.
BACK (middle) goes flat on the back of the rail, facing the wrist, one piece each side of the motor;
TOP folds up and over the rail's upper side, BOTTOM down over its lower side. Stiff card, glued flat;
the faces must not move or bend. Exact fold angles do not matter - every face is calibrated on its own.
RIGHT pieces on the RIGHT gripper only. Keep them on: the top-down picks read them.

100 mm
